

By A.H.BEARD®

Platinum Comfort

Advanced support technology and premium comfort materials combine to create a five-star sleep experience your guests will keep coming back for.

Reflex Advance Support System responds to each person's unique size and shape to deliver the level of support their body needs. **125 Active Coils (QUE)** spread throughout the support system.

Premium fire retardant stretch knit fabric with **Adaptive® temperature regulating technology** responds to body temperature to help keep the body cool and dry while asleep.

AeroQuilt provides breathable, pressure relieving comfort that is more resistant to body impressions.

Generous layers of **Comfort Foam** made from environmentally friendly **EvoFoam** deliver pressure-relieving comfort.

Encased in a **Performa Edge Support** - a high density foam edge that provides a larger sleeping surface and a stronger mattress edge.
