

# Platinum Response

Advanced support technology and premium comfort materials combine to create a five-star sleep experience your guests will keep coming back for.

**Reflex Advance Support System** responds to each person's unique size and shape to deliver the level of support their body needs. **125 Active Coils (QUE)** spread throughout the support system.

Premium fire retardant stretch knit fabric with **Adaptive® temperature regulating technology** responds to body temperature to help keep the body cool and dry while asleep.

**AeroQuilt** provides breathable, pressure relieving comfort that is more resistant to body impressions.

Generous layers of **Comfort Foam** made from environmentally friendly **EvoFoam** deliver pressure-relieving comfort.

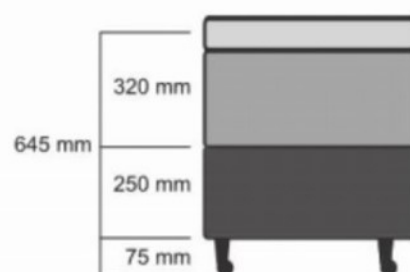

**Mini Comfort Coils** conform to the body to provide additional comfort and pressure-relief.

**Talay Latex** provides breathable, pressure relieving comfort and reduces partner disturbance. It is naturally hypoallergenic and antimicrobial.

Encased in a **Performa Edge Support** - a high density foam edge that provides a larger sleeping surface and a stronger mattress edge.
